

# DILIGENTIA 2025

## IPSC Canada Official Newsletter

## Regional Director Report

2024 was a roller coaster year for IPSC Canada. It started off great with our second PCC National Championships in British Columbia. It was a very well run, challenging event and had increased participation from the inaugural one in Halifax in 2023.

As the year progressed, we saw a record number of Level 3 matches being run in Canada and despite the government's handgun ban – we continued to grow.

The PCC Black badge course was being rolled out across the country with hopes of PCC being a new growth route for us.

The Handgun Nationals in Ontario was a bar-setting match. Challenging stages, a well-organized event and capped off with an amazing awards ceremony. We couldn't have asked for more.

The NEC had a few meetings via zoom, ensuring expenditures were kept to a reasonable amount and we accomplished quite a bit.

As we hit the end of the year through – the government decided to throw us a curve ball and banned 324 firearms, which essentially wiped out or whole PCC program. We had to cancel the planned 2025 PCC Nationals in Ontario and our PCC competitors heading to the PCC World Shoot in the Czech Republic are stuck borrowing or renting firearms to compete with and having no firearms to train with.

The NEC finished the year with a good meeting with a conservative member of parliament to express our needs should they come to power in 2025. I'd like to take this opportunity to thank all the members of the NEC for their tireless devotion to our sport and all the efforts they put in.

2025 is a massive year, with so very much happening.

The Director of NROI (Jim Smith) and I had a productive meeting with the Conservative shadow ministers for the Attorney General and Public Safety in February. They are assuring us that should they come to power this year, our future will have hope again. They recognize IPSC as the predominant shooting sport in Canada.

The NEC has debated a few topics online and plans an in-person meeting in Toronto in late April.

The Handgun Nationals team in Alberta is working hard and has shown their plans to run an excellent event in late July. As I type this, slots are being distributed to the sections.

There are Four World shoots this year. Action Air, Handgun, PCC and Mini Rifle. I've been working to arrange slots and information for all these events for our members.

IPSC Canada has a great team headed to the PCC World Shoot in the Czech Republic in May with our top 4 ranked competitors:

**Taylor Reich, Wesley Stevens, Justin Thomson and Everett Pulido.**

**Congratulations guys** – I am sure you will do us proud! In total, 17 Canadians will attend the PCC World Shoot.

As I type this, we are distributing slots for the Handgun World Shoot in September in South Africa. Over 50 Canadians will be attending this event. The 2002 World Shoot there was an amazing event, so our expectations are high for this year.

Our Handgun World Shoot teams are as follows:

Open Team	Laurenson, Cory
Open Team	Boisvert, Francis
Open Team	Porth, Matt
Open Team	Doucet, Remi
Production Team	Berdat, Alexandre
Production Team	Dobbs, Ryan
Production Team	Tan, Andry
Production Team	Werbeniuk, Dmitri
Production Optics Team	Reich, Taylor
Production Optics Team	Latulippe, Maxime
Production Optics Team	Olver, Daniel
Production Optics Team	Bancroft, Joel
Standard Team	Arshia Amaro
Standard Team	Wynia, Adam
Standard Team	Mikkelson, Tyler
Standard Team	Masson-Lefebvre, Olivier
Classic Team	Hewlett, Jason
Classic Team	St-Laurent, Yves
Classic Team	Stevens, Wesley
Classic Team	Hansen, Sean

### **Congratulations to all of you!**

At the Handgun World Shoot, the General Assembly will meet and elect the IPSC President and make rule changes. We'll be attending and working closely with the assembly for what we believe helps the positive direction of IPSC.

This year there will be a Federal Election. It may come as early as March or as late as October. We've seen that the Liberals and NDP simply hate us. They want to eradicate guns and us along with them. The only vote that is a vote for gun ownership is the Conservatives. Not only have they shown that they are not interested in taking away our sport – they have shown clearly that they believe our sport is important and has a place.

We as gun owners need to do more than just give them votes. We need to help them get the votes. Please take the time to reach out to your local Conservative candidate and volunteer to help and / or send some money to the local candidate. If we don't get a Conservative majority this year, our days will be numbered.

I intend to seek to continue my role as Regional Director in the upcoming RD election. I've had this position since 1997 and been on the NEC as Section Coordinator of Nova Scotia since 1994.

I am uniquely qualified for this position, and I'll go over that now.

I have been a very busy part of the Canadian gun industry for the last 20 years. I personally have imported over 10,000 of the best competition firearms into this country. I know all the players and have connections where they are needed. When handguns were legal to import, I regularly was a major sponsor of our Nationals, having donated multiple guns at events.

I've been a current Range Master in NROI since 2002; having been in that role for at least 20 level 3 matches. I've been the match director for more than 20 level 3s and hundreds of level 2s and I've been the match director for 6 national championships.

I'm a shooter. I took my black badge in 1990. I have twice represented our region on national teams at the World Championships (*Standard – Greece and Classic – Thailand*) and will again this year in South Africa on the Classic Team. I rarely find myself ranked less than 10<sup>th</sup> in our national rankings. (*Currently ranked 8<sup>th</sup> in PCC and 6<sup>th</sup> in*

*Classic Handgun*) I received my best finish of second place in Standard at the Nationals in Lethbridge. I have dozens of Nova Scotia provincial titles.

My knowledge and experience with the IPSC General Assembly is deep. There are rules in the rule book that I presented to the assembly and had accepted. I have a great working relationship with the players in IPSC. When I speak at the assembly, I get the respect that Canada deserves. When I talk with the IPSC President; he listens.

I've been invited to join the IPSC Continental Council and the IPSC Constitutional Committee due to my experience and knowledge.

With my leadership comes one of my best friends - Jim Smith, who has been the director of NROI for several years. Jim has worked tirelessly to raise the level of NROI to be the best group of officials in the world. He has assembled a team of hard-working dedicated officials to update training, handle disputes and answer concerns. A National champion and multiple time National Match Director; Jim has worked to ensure that our National events are of the highest caliber.

As Regional Director, it is my primary responsibility to make the sections a cohesive team to promote and grow IPSC in Canada. Points of Views across this country are very diverse and we have some strong-willed people on the NEC, but I can usually find the optimal solution for our region when I work with them. In the RD election, the section coordinator vote. If you like what you here in this article, please let your section coordinator know that you support me.

It's been a privilege and honor to be Canada's Regional Director, and I hope that with the member's support – I can continue that job.

Sean Hansen

## Director of NROI Report

Greetings NROI Canada Officials,

As we reflect on 2024 and look forward to the 2025 shooting season, NROI Canada is proud of the work put in by our officials across the country to support IPSC Canada matches and improve their knowledge and skills through ongoing education.

The training and development of new officials continues across all Sections, with our National numbers now reaching over 890 Range Officers, Chief Range Officers and Range Masters. In 2024 we congratulated 4 new graduates from the National RM program: Colleen Piper (AB), Nick Gan (ON), Antoine Bertrand (QC), and Barry Moore (SK).

Further to our educational goals, NROI Canada began a rollout of the Maintenance Exam in 2023 as a means of refreshing all officials on current rules and providing learning and discussion opportunities. This exam will continue to evolve as rules change but will remain an important part of all officials' ongoing education and certification maintenance. Some of the lessons learned and discussions generated from the exam have made up content in the NROI communications which have recently been sent to all officials. It is our goal to improve communications and resources both through quarterly emails and the future introduction of a revamped NROI Canada website. Your suggestions are helpful in the development of these resources, so please continue to send rule questions, clarification requests and interesting scenarios for inclusion in future newsletters.

Additionally, several members of NROI Canada have contributed to the development of an updated Level 1 seminar. This newly released, revamped seminar is now available for instructors across the country to train their prospective Range Officers and represents the first step in a longer-term project of converting many elements of the seminar to online.

Work is also underway on a new Shotgun Black Badge course for release later this year with the goal of promoting Shotgun participation in advance of the Shotgun World shoot in 2026. The PCC and Handgun Black Badge courses are also undergoing some updates for a 2025 release as well.

Last year's Nationals for Handgun and PCC both featured excellent teams of officials representing every section across Canada. With each passing year we are seeing our National Championships grow in participation, stage development and overall administration.

The Match Directors of the 2025 Handgun Championship have recruited full-time staff, are putting the finishing touches on stages, and promise a stellar match for our country's best to compete for the titles.

Unfortunately, this year's PCC Nationals was wiped out by the Liberal government's last OIC. We are at a critical time for the survival of our sport and as such, strongly encourage every member of the shooting community to contact their local Conservative Electoral District Association and volunteer in any capacity they can. Our existence is in the hands of the Conservative party at this point – we must do everything we can to help.

Many thanks again to all the hard-working officials at every level of match across every section – you continue to represent some of the best officiating in the world.

Regards,

Jim Smith

NROI Canada Director

Jennifer Eichenberg

NROI Canada Assistant Director

## L'IPSC au QUEBEC

Bonjour à vous tireurs IPSC, le Québec compte autour de 750 membres et on peut dire qu'il y a une compétition par fin de semaine, mais allons plus en détails.

La saison d'hiver compte 3 ligues, une à Sherbrooke (club de Lennoxville), une à Joliette (club Lanaudiere) et une autre à Montréal (CTM club de tir Montreal) toutes ont leurs résultats compilés avec leur trophées de saisons (gros merci à practiscore).

Un match niveau III, le MIC ou CIM Challenge Interieur Montreal est en préparation et sera prêt pour le 28-29-30 mars.

Les 60 cm de neige mesurés ce matin vont bientôt fondre et feront place à la saison d'été

- Durant l'été on a 1 à 2 match par fin de semaine, si il y en a 2 on s'arrange que ils soient loin un de l'autre. Presque tous les clubs de tirs approuvés IPSC ont leur propre ligue entre 2 et 4 compétitions mais nous avons aussi une ligue qui fait la rotation entre 8 clubs et est très populaire.
- Les champs de tir ici sont petits et étroits, voilà pourquoi nous utilisons autant de mover de toutes sortes et nous sommes habitués de changer de set up des stages en quelques minutes sur le même range.
- Notre niveau III de l'été est le Provincial qui compte depuis quelques années 16 stages et se déroule en groupe de 2 stages au lieu de 4 comme précédemment. Les squads comptent+ environ 14 tireurs ce qui se compare à un groupe de 7 tireurs par stages.
- On a maintenant 2 matchs IPSC SHOTGUN et peut être même 3 cette année car un groupe se prépare pour le Italian Shotgun National niveau III.
- L'an passé un groupe de fervent tireurs IPSC sont descendus à Dalhousie pour aider à monter le 600 balles Summer Slam. Ce n'est peut être pas au Quebec mais c'est tellement simple de monter un match sans nos restrictions Québécoises que ils ont décidés d'y retourner cette année et le match sera niveau III avec des CRO et RO attirés à leurs ranges respectif.

Au World Shoot nous aurons 4 tireurs qui feront partie des équipes Canadienne soit; Yves St Laurent(classic), Olivier Masson Lefevre(std), Francis Boisvert(open) et Alexandre Berdat(prod), bonne chance.

Bon tir, et n'oubliez pas d'aller à la construction de un match par année dans votre région, l'IPSC à besoin de vous.

Guy Gauthier IPSC Québec

## IPSC in QUEBEC

Hi to all IPSC shooters, Quebec section has around 750 members and let's say with a match almost every weekend but why not go into detail.

- In winter 3 leagues are running, one in Sherbrooke (Lennoxville Club), one in Joliette (Lanaudiere club) and one in Montreal (CTM) all of these with season trophy and compiled results (so easy with Practiscore).

A interior level III match the MIC (Montreal Interior Challenge) is in progress and will be ready for march 28-29-30.

As of today, the 60 cm of snow we received is about to start melting so we can move to the summer season.

- In summer there are 1 or 2 matches per weekend, if they are on the same day we take care that they are far away from each other. Almost all exterior IPSC local clubs have their own league of 2 to 4 matches, we also have a league that moves to clubs around the province with great success.
- Shooting club here are small and narrow this is why we use so many movers of all kinds and set up are made to be turned over in a matter of minutes to make a complete new set of stages.
- Our summer level III match is our Provincial, now at 16 stages held on the Valcartier shooting club and just to let you know stages are run in rotation set of 2 not 4 like previously and squad are big around 14 shooters, it is like shooting in a 7-shooter squad.
- We now have 2 IPSC shotgun matches per year held at the CTRV (Valcartier gun club), may be 3 this year because some need more practicing to be ready for the Italian shotgun National's, who knows?
- Last year a bunch of Quebec IPSC avid shooters went to Dalhousie NB to help build the 600 rounds Summer Slam, ok it is not in Quebec, but it is so easy to set up match there that we return helping again this year and it will be a level III with appointed CRO and RO on each range.

At the World shoot this year, 4 of our shooters are team Canada member

Yves St Laurent (CLASSIC), Olivier Masson Lefevre (STD), Francis Boisvert (OPEN) and Alexandre Berdat (PROD), as usual do your best.

So have fun shooting and don't forget to go help set up at least one match in your region, IPSC need you.

Guy Gauthier Quebec Section

In 2024, IPSC Saskatchewan achieved a series of milestones and experienced many firsts.

We concluded the year with 118 members, the highest membership count in our history.

We hosted our 2024 Provincial Championship Level III match with 132 participants, making it the largest match in our section's history. The match took place at the Saskatoon Wildlife Federation Ranges and was MD'd by Alain Dumuk, who, alongside his crew, did an outstanding job.

Our four dedicated Black Badge instructors trained 38 new shooters, achieving another record as we welcomed them to our sport.

We also celebrated our experienced official, Barry Moore, who officially achieved the rank of Range Master, becoming the first RM in our section. Barry's commitment to the sport is unmatched.

Our exceptionally talented shooter, Wesley Stevens, qualified to represent Canada in both the PCC and Handgun World Shoots, achieving a top 4 ranking in the country—a significant accomplishment.

We continue to host our monthly matches, alternating between Saskatoon and Regina. Last year, we conducted 12 Level matches, including one in Prince Albert. We are collaborating with our members in PA to establish it as a third shooting venue for sanctioned matches in our section.

Financially, we have made significant progress and now maintain a very healthy balance sheet. We have committed to supporting our team members who represent our section at Nationals and will continue to do so. Additionally, we have been allocating funds to both the Saskatoon Rifle and Revolver Club and the Regina Association of Practical Shooters for the purchase of range equipment.

We are doing our utmost to grow our section despite the challenges posed by the federal government, and we remain optimistic as we look forward to a brighter future for our sport.

DVC.

Adnan Parwez.

SC- IPSC Saskatchewan.

## IPSC Nova Scotia Report

Hello from Canada's Ocean Playground. IPSC NS last year had a pretty good year. We ran Four Level 3s: the Spring Bang Indoor match, the Spring Meltdown in May, our Handgun provincials and our PCC provincials. We had around 160 members and held PCC and Handgun Black Badge courses.

We held one level 1 RO course as usual. We held eight Level 2 matches with decent attendance. Our challenge was that our Level 3s were getting low turnout while our Level 2s were almost full. At the AGM it was decided that the Level 3s would be more successful if we held them so you could shoot them in one day so we're going to be doing that this year.

This year we'll have Level 3 pistol matches in June and August at the Halifax AMA range where we've hosted the nationals in the past and we're always happy to see faces from outside of the province so if you're interested, let us know.

We will be sending a Classic and an Open Team to the Nationals in Taber later this year and hope to see you there.

Sean Hansen

Section Coordinator, IPSC NS.

## IPSC Ontario Section Report

2024 was an exciting year for Ontario despite the political climate.

Our goal was to increase the number and quality of matches available to the membership and manage the needs of 2000 members and over 300 officials

Ontario hosted 234 matches in 2024 with over 11,000 scores posted. This included 6 Level 3 matches including 3 Provincials and the Nationals.

Our congratulations and thanks to the National's team, volunteers and sponsors who delivered an amazing and high-class Match.

We saw a significant uptake in Shotgun and PCC.

Training continued with 42 Black Badge courses and 2 RO courses

Our Match Improvement program included significant financial support for Level 3 matches as well as a Small Club program designed to provide clubs with financial assistance to acquire steel and other props to support more challenging matches and increase the number of overall available competitor experiences.

2025 is off to a great start with over 45 matches as of the end of February and over 900 scores posted.

Matthew Elliott

Section Coordinator Ontario

## IPSC Manitoba Report

Greetings from Manitoba!

Fellow IPSC members...spring is just around the corner. The first day of spring this year will be March 20 at 0501. Equal hours of days and nights as it rolled towards the longest daytime of the year. The clock will be moving forward by an hour again come March 9, which is a great sign that in a few more weeks, our Section will be gearing up for our outdoor matches. It's been a while since the last Diligentia Edition, putting it back is a noble initiative from RD Sean Hansen and fellow Manitoban Norm, Frankfurt. The positive and vibrant messages from the different Section Coordinators, as it relayed to all IPSC members across Canada, served not only to be informative but also as a linking drive with the end in mind of uniting all Section together as one...for the love of the sports and the thrust to preserve its existence.

The membership of IPSC Manitoba is growing steady, as there is big amount of interest manifested by firearm's enthusiast in the province, for them to be part of our shooting community. In 2024, IPSC Manitoba successfully run four Handgun Black Badge courses, a PCC Black Badge course and is expecting to have another one come April of this year.

For our matches, we were able to run well attended indoor matches during all the cold months, starting October with the last indoors expected to unfold on April 13. The outdoor season will start with its first salvo in Brandon (May 25) and every month thereafter, culminating in our annual Provincials scheduled September 6-7 at the Selkirk Game and Fish – Range 4, the registration for this momentous event will start March 31 at 7:00AM through PractiScore. I would like to cordially invite you to grace our matches, all information about it are readily accessible through our website (<https://www.ipscmanitoba.com/events/>).

I would like to congratulate the members of IPSC Manitoba who participated and qualified to be part of Team Manitoba for the 2025 IPSC Canada National in Taber, Alberta. We are looking forward to the warmth of hospitality from the organizers of this year's Nationals and eager to enjoy traversing the intricacy of every stage of this standout shooting event.

For this year, IPSC Canada will be electing our Regional Director and Manitoba takes pride in endorsing Sean Hansen for another fresh mandate. Best wishes to all the candidates and rest assured that the person to be elected is the best candidate, that is proven, dependable and can be trusted in words and indeed.

Stay safe always...may GOD bless us all.

Fraternally

Rey Olazo Section Coordinator-Manitoba

## IPSC Alberta 2024 Year in Review

Our Membership increased in 2024 from 600 to 800 active competitors including 17 youth. PCC (pistol caliber carbine) helped with that increase as well as the willingness of club members to help others to borrow and or lend handguns to new shooters. Even with the political uncertainty over all competitor's heads of what will happen with their firearms. We continue to increase our membership numbers.

IPSC Alberta hosted 31 level two matches plus our Provincial Championship Match through the summer season. Throughout the winter and off season, the clubs across the province continue to host their own level one matches. Some clubs even run level one matches every week.

In 2024 IPSC Alberta had 155 range officials of which 142 were active, certified range officials. In March 2025 there will be 2 Range Officers courses, with a total of 18 candidates enrolled. In April 2025 there will be 1 Chief Range Officers course, with 12 candidates enrolled.

### Outlook for the year 2025

Considering the current political climate, our members and clubs continue to support the growth of this sport. As we stay positive and continue to move forward. With the summer season fast approaching and about 30 matches planned. We are all excited to get outside competing with our friends.

2025 IPSC Canadian Handgun Nationals comes to Taber, Alberta this year from July 28th through to August 3rd, 2025. The CCFR (Canadian Coalition for Firearm Rights) is the naming sponsor for the match. I want to thank the growing list of match and stage sponsors for your continued support of the sport. I would also like to express my gratitude to IPSC Canada for their financial support helping offset the costs involved with range officials, this help cannot go unrecognized. Thank You.

Cheers

Rob Mckenzie

Section Coordinator

## IPSC British Columbia Report

IPSC BC has a very busy year planned. Thirty-nine Qualifiers and our provincial championships are on the schedule this year. Our membership is down slightly this year, but we will break 1000 members. We have a very active group of Instructors training new people for our sport. We also have four RO courses and one CRO course planned for this year. IPSC BC currently only has two Range Masters, we now have seven members that have been accepted into the NROI Range Master program.

Our provincial championship will be hosted by the Prince George Rod and Gun Club, <https://ipscbc.com/bc-provincial-championships/>. The Match Director will be Andrew Tomlinson. Andrew and his crew are veterans when it comes to putting on a good event. If you have the time, I urge you to attend this match because it will give you an idea as to what to expect for the 2026 IPSC Canada Handgun Nationals. This host organization has been awarded next year's national championship.

BC will be sending the following Gold Teams to Nationals being held in Tabor this year:

### Classic Gold Team:

- Omar Al-Zubaidy
- Andrew Tomlinson
- Guan Wang
- Tong Tong Woo

### Open Gold Team:

- Avery Wong
- Timothy Lam
- Thomas Hesse
- Don Chang

### Production Gold Team:

- Jay Hedden
- Jay Liu
- Christopher Leir
- Ryan Wilson

### Production Optics Gold Team:

- Oleg Matveenko Jr
- Thor Jovellanos
- Tyler Mikkelson
- Lee Corfe

### Standard Gold Team:

- Mac Corrie
- Yong Cui
- Brent Andres
- Kevin Wheatcroft

### Lady Gold Team:

- Stacy Daneluk
- Elizabeth Martin
- Rebecca Wortmann
- Mary Joy Siscar

IPSC BC has created a couple of new positions in our organization. Paul Jamieson has taken on the role of Social Media Coordinator. Many of you met Paul at last year's nationals. He was the photographer for that event. Our social media numbers have increased dramatically with his involvement.

Dawne Deeley is our new Public Relations Coordinator. Dawne brings a very diverse background to this position. She has extensive experience dealing with attorneys, legislators, and media outlets. Having made presentations to politicians and legislative committees, her skillset and experience is welcome in this role.

In today's politically charged climate, it is crucial for organizations like ours to maintain a positive and strategic social media presence. Social media serves as a direct communication channel between our organization and the public, allowing it to shape its image, engage with supporters, and manage its reputation.

A positive presence can help IPSC build trust and transparency, providing a platform for sharing its mission, values, and accomplishments in a way that resonates with diverse

audiences. In an era of misinformation and polarization, an active and thoughtful social media approach also enables IPSC to combat potential misrepresentations and present accurate, balanced perspectives

There is a lot of political turmoil in our country right now, and possibly a pending election. I encourage all members to write their MP's, and let them know your thoughts.

I will see you on the range.

DVC

Mark Hamrol

Section Coordinator IPSC BC

## IPSC New Brunswick Report

Ladies and Gentlemen, fellow competitors. It's been a couple years since the last Diligentia publication. We are all going through a roller coaster of hardships and hurdles to our sport over the past couple of years. But let's focus on some of the good "Highlights" over the past few.

IPSCNB has always come together as a team, an organization, a family to ensure our members enjoy their sport. That is IPSCNB's goal "Give back to the Member" Our organizers, hosts, and volunteers are a testament to that! Yet again filling the 2025 season with a full schedule of matches. My hat is off to them, Thank You all.

A couple of years ago IPSC NB introduced separate Provincial Championships for Revolver and Classic divisions due to low representation at the yearly Handgun Provincial Championship. This was a great success having members dusting off "Irons" that otherwise would only see the range a couple times a year. As well we introduced a PCC Provincial Championship 2023,24, which received amazing turnout. We do have a "tentative" 2025 PCC Prov's planned should we regain our freedoms.

IPSCNB's has been honored with two hosts/organizers in the last 2 years that raised the bar and placed their name (SNB250, Summer Slam) in IPSC Canada's record books. By hosting "The largest" matches to date. The SNB 250x2 is held in 2023, 28 stages, 500+ rds. in 2 days. The Summer Slam was held in 2024, 24 stages, 600+ rds. in 2 days. (Big shout out to IPSC QC who stepped up and helped their boarder club, honorable).

The NB Clubs, the match directors, the trainers, the range officers and especially the volunteers who dedicate their time to build these matches. We Thank You! For keeping this great sport thriving within our province.

Cheers,  
George McKillop  
IPSCNB Section Coordinator

International Practical Shooting Confederation  
Newfoundland and Labrador

Cheers from Newfoundland and Labrador!

Our membership has remained steady around 65 shooters in the last few years. We conducted multiple Black Badge Courses along with the New PCC Black Badge Course at different ranges in NL. We conducted Range Officer courses. All this is helping us grow and keep the sport alive in these hard times for firearms owners in Canada!

IPSCNL started our shooting season in April, and we had 12 matches in 2024. These matches were held at five different ranges, and we had folks travelling around the province to attend all of the various matches!

We had shooters attend matches outside the province including the 2024 Atlantic Championship, Nationals and Summerslam to name a few! We would like to thank all sections in for making memorable matches for us all.

We also held our 2024 IPSCNL Provincials along with our agm in September. This Level II match took place at the upper Humber range in Deer Lake, NL

Thanks to all of our sponsors, shooters, Range officer's executive, volunteers and anyone that helps keep IPSC moving in Newfoundland, Canada and the rest of the World.

In 2025 we will be hosting matches all over Newfoundland at multiple ranges, We will be hosting our second level III match (The Atlantic Championship) this August along with our provincials at the St Johns Rod and Gun Club, This match became a child from covid and the Atlantic bubble and has been a continued success! We also have a member working on Range Master Status. This will help NL grow as well,

Corey Reid , Section Coordinator
